High Performance Entrance Door

Meridian

The Doorway to a Greener Future

The Meridian door range is proud to support the Woodland Trust. The Woodland Trust care for our woods and create vital places for people and wildlife to enjoy.

The Meridian door is specifically designed to promote environmental benefits without compromising our natural environment.

Our high performance doors are manufactured to ensure you enjoy not only thermal benefits that will help reduce your energy bills but also use the latest in modern materials to ensure we preserve our natural woodlands.

*We are also committed to the ongoing support of the Meridian Wood, Bluntisbam through the Woodland Trust...
...proving this is a doorway to a greener future.*

Meridian doors are working in conjunction with the Woodland Trust to preserve and protect the UK's woodland

Benefits of a Twin Rebate Door

The Meridian range of composite entrance doors offers you the ultimate in performance and style.

Behind the complementary range of colours and hardware is a door constructed using the very latest materials to give you a high performing energy and security door ensuring it not only looks good but makes your home safe and secure.

Delivering A++ Energy Rated, Secured By Design security, triple glazed, 70mm thick door slab as standard on all Meridian doors is your doorway to not only a greener future but more secure future.

1. A++ Energy Rated

50mm triple glazed units as standard along with 70mm thick door slab provides excellent all round energy performance.

2. Enhanced Weathering

The Meridian rebated door slab is standard on all designs. Providing an additional internal perimeter seal for enhanced weathering, thermal and security performance.

3. Secured By Design

All Meridian doors are Secured By Design as standard, ensuring you are safe and secure at home. High performance multi-point locking and rebate hinges to all our doors, ensuring they pass the police backed accreditation.

4. 70mm Thick Composite Slab

All Meridian doors are manufactured using a 70mm thick composite slab, providing you with 17% more thermal efficiency than a traditional 44mm timber panelled door.

Meridian doors are working in conjunction with the Woodland Trust to preserve and protect the UK's woodland

meridian Door Styles

Meridian

The Doorway to a Greener Future

Your entrance door is the first feature people notice about your home. It reflects your home's personality, your lifestyle and aspirations. The Meridian range of doors not only provides you with a comprehensive choice of 11 styles, in various glass and colour choices, but also provides you with high security and energy performance, giving you the bespoke style and choice with leading edge performance.

Today's composite doors are the perfect stylish, secure and low-maintenance choice; combining superb aesthetics with unrivalled, long-life performance. With superior weather-tightness, secure locking systems and greater thermal efficiency, your home is fully protected with a modern entrance door.

How's that for peace of mind?

Whichever door you select, you can be assured that your door has been made to the highest quality standards. Whether your requirements are for a door with a large glass area to bring light in to your home, or a door with little or no glass to maintain the privacy in your home, you will find a design to suit in our extensive composite door range.

- Pine 1
- Beech 2
- Cedar 3
- Maple 4
- Birch 5
- Elm 6
- Oak Solid 7
- Alder 8
- Asb 9
- Teak 10
- Willow 11

Security

Safety and security are uppermost in everyone's mind. 67% of burglars break in through the door, according to Home Office official crime statistics. That's why our Meridian composite doors use only the best quality multi-point locking systems to keep your home and family fully protected.

Safe and Secure

Feel reassured with a Meridian composite door, which is manufactured in accordance with Secured by Design, a Police-backed accreditation. Secured by Design is the official UK police approval for security products that ensures they are designed, manufactured and tested within strict rigid guidelines.

Meridian SBD-licensed doors are available as either solid or glazed versions, giving your home the ultimate protection from unwanted intrusion.

70mm Rebated Triple Seal Design

The Meridian door is designed to improve security and performance. Our rebated design not only provides an additional weatherseal strip to enhance thermal and weathering performance, it also improves security too.

All doors are manufactured using a 70mm composite slab/leaf instead of the traditional 44mm, enabling a triple sealing system and triple glazing on all doors.

67%

of burglars break in through the door

59% thicker than a standard 44mm door

Energy Performance

A Meridian GRP composite door is more energy efficient than a traditional timber door or a solid timber core composite door – fact!

These days, we all worry about how much energy our homes use. The rising cost of our energy bills and our impact on the environment mean we want to keep our consumption to a minimum. One of the best ways to do this is to choose thermally efficient products that keep warmth in and cold out, saving money and emissions.

When it comes to thermally efficient doors, a Meridian GRP composite door is the best choice you can make.

19%

more thermally efficient than a 48mm solid timber core composite door

17% more thermally efficient than a 44mm traditional timber panelled door

The photos below show the thermal efficiency of each of the doors we tested. The darker the blue, the less heat is being lost. Reds and greens – the predominant colours on the timber door – indicate high heat loss.

Traditional timber panelled door

Solid timber core composite door

Meridian GRP composite door

Personalise Your Door

Your door is as individual as you are. We manufacture every composite door to the customer's exact and bespoke requirements.

Personalise your door from our vast range of options that add a unique finishing touch.

Starting with your door style from our comprehensive range – glazed or solid, it's up to you.

Next, you need to choose what type and style of glazing panel you require. Within our myriad of glass designs and styles, there are many choices to suit your location and lifestyle.

Then choose your colour, there are eleven standard finishes including the ability to have a bespoke finish to suit your exact needs.

Finally, select your hardware from our attractive ranges of standard or perfectly-matching door furniture in gold, white, black and chrome.

Range Options Fold Out User Guide

Turn to the product page of the door that you have chosen. Unfold the range option fold at the back of the brochure.

1st choose your glass and colour options from the double page spread.

Finally, fold inwards the hardware options tab.

Five Steps to Your Perfect Door

Step 1

Decide on your door style. Twin glazed, single or solid, you can choose from our extensive ranges featured in the following pages.

Step 2

Select your glass. So many designs to select from, just refer to the pages relating to your door style for details.

Step 3

Choose a colour to suit your property or personal taste, there are great colours to choose from or you can request a bespoke colour.

Step 4

Choose a frame colour to suit your door. You can have it in white or matching the colour of your door.

Step 5

Finally no door is complete without the door furniture, we have a wide range of knockers, letterplates and handles to enhance your chosen door.

Finished Door

Colour Options

Whether you are looking to complement your home with a heritage colour or a bright solid colour, we have a range of finishes to bring out the best in your door.

Choose from our comprehensive range of colours to complement your glass designs and hardware colours. All doors can be supplied with the outer frame in white or matching the colour of your door - you decide what suits your home the best.

Bespoke Colour Selector

In addition to our colour range, you can have virtually any colour entrance door.* Simply provide your colour choice and RAL reference code and we do the rest.

* Not available in metallic colours.

Maintenance & Operation

With a minimal amount of care and maintenance your Meridian door will stay looking good and perform superbly for many years to come. Our products are easy to use and simplicity itself to care for and maintain.

Cleaning of PVCu Frames (White)

Under normal circumstances the washing down of doors with dilute washing up liquid will suffice but occasionally where more stubborn stains build up it may be necessary to use a non-abrasive PVCu liquid cleaner. Apply the cleaner using a dry cloth. Use sparingly in small circular motions then buff back to shine.

Cleaning of PVCu Frames (Grained/Laminated Colour Finish) and Composite opening leaf

Use only diluted washing up liquid and water. Do not use any cleaning fluid on wood grain finish doors.

NB: Please do not personally attempt repairs on your door as this may invalidate the warranty. They are highly engineered products and require specialist parts and experience. We have experienced fitters and service engineers that will be happy to assist with any repair issues that you may experience.

Entrance Door Operation

Meridian doors have a high security multi-point locking system. The door can be opened from either side by unlocking the cylinder key then pushing down the handle.

To close simply push or pull the door as applicable, and pull the handle upwards to engage the multi-point locks, then turn the key to lock the door. When the door is locked you should not be able to push the handle down.

NB: All doors available as OPEN IN only.

The following section indicates simple best practice 'do's & don'ts' to ensure continual optimum performance of your doors.

Do

- Clean the glass regularly with a good quality liquid spray glass cleaner.
- Do ensure extra care is taken when cleaning the glass that has antique diamond lead or lead around the bevels.
- Frequently wash down the PVCu profiles with warm soapy water and wipe dry.
- Only use cleaning materials which do not impair anti-corrosion properties of the surface coatings.
- Ensure drainage slots are unblocked and free from dirt and debris.
- Keep all tracks clear of dust and debris in order to reduce the wear on sliding parts.
- All moving mechanical parts are lubricated - hinges, locks and keep plates will benefit from a small application of light oil at least once a year.
- Replace damaged or worn parts with original Phoenix parts.

Do Not

- Use any type of bleach, solvent (e.g. white spirit, methylated spirits, nail varnish remover) or adhesives.
- Use abrasives or brass cleaner on furniture: handles, door knockers, letter plates.
- Use glass cleaner on the PVCu profile.
- Use abrasive paste or cream cleaners on any laminated profile.
- Use excessive pressure when cleaning PVCu.
- Use high pressure or steam cleaners.
- Use any abrasive papers, such as sandpaper.
- Paint or try to remove paint.
- Use any unspecified tools.
